# Instructional Science

**An International Journal of Learning and Cognition**

**CONTENTS of Volume 22 1994**

**Volume 22 No. 1**

Perkins, D.N. & Unger, C.: A new look in representations for mathematics and science learning 1–37

White, C.S. & Manning, B.H.: The effects of verbal scaffolding instruction on young children's private speech and problem-solving capabilities 39–59

Thiele, R.B. & Treagust, D.F.: The nature and extent of analogies in secondary chemistry textbooks 61–74

**Volume 22 No. 2**

Gorsky, P. & Finegold, M.: The role of anomaly and of cognitive dissonance in restructuring students' concepts of force 75–90

Pillay, H.K.: Cognitive load and mental rotation: structuring orthographic projection for learning and problem solving 91–113

Jaspers, M.W.M. & Van Lieshout, E.C.D.M.: A CAI program for instructing text analysis and modelling of word problems to educable mentally retarded children 115–136

Jegede, O.J., Fraser, B.J. & Okebukola, P.A.: Altering socio-cultural beliefs hindering the learning of science 137–152

Guidelines for authors 153–156

**Volume 22 No. 3**

Mason, L.: Cognitive and metacognitive aspects in conceptual change by analogy 157–187

Prosser, M.: A phenomenographic study of students' intuitive and conceptual understanding of certain electrical phenomena 189–205

Gall, J.E. & Hannafin, M.J.: A framework for the study of hypertext 207–232

Yuen-Yee, G.C. & Watkins, D.: Classroom environment and approaches to learning: An investigation of the actual and preferred perceptions of Hong Kong secondary school students 233–246

***Volume 22 No. 4***

*Special Issue*
**Problem-based Learning**

*Guest Editor:* Henk G. Schmidt

Schmidt, H.G.: Problem-based learning: An introduction 247–250

Dolmans, D.H.J.M., Schmidt, H.G. & Gijselaers, W.H.: The relationship between student-generated learning issues and self-study in problem-based learning 251–267

Geerligs, T.: Student's thoughts during problem-based small-group discussions 269–278

Schmidt, H., van der Arend, A., Kock, I. & Boon, L.: Peer versus staff tutoring in problem-based learning 279–285

Moust, J.H.C. & Schmidt, H.G.: Facilitating small-group learning: A comparison of student and staff tutor's behavior 287–301

Wilkerson, L.: Identification of skills for the problem-based tutor: student and faculty perspectives 303–315

Van Berkel, H.J.M., Nuy, H.J.P. & Geerligs, T.: The influence of progress tests on study behaviour 317–333

**Book reviews**

Wilkerson, Luann: Bouhuijs, P.A.J., Schmidt, H.G. & van Berkel, H.J.M. (Eds.). *Problem-Based Learning as an Educational Strategy.* 335–338

Bouhuijs, Peter A.T.: Boud, D. & Feletti, G. (Eds.). *The Challenge of Problem Based Learning.* 339–340

***Volume 22 No. 5***

Suppes, P. & Ager, T.: Computer-based advanced placement calculus for gifted students 339–362

Veenman, M.V.J. & Elshout, J.J.: Differential effects of instructional support on learning in simulation environments 363–383

*Segal, J.: Empirical studies of functional programming learners* evaluating recursive functions 385–411

**Volume 22 No. 6**

Niaz, M.: Enhancing thinking skills: Domain specific / Domain general strategies - A dilemma for science education 413–422

Tiberghien, A., Psillos, D. & Koumaras P.: Physics instruction from epistemological and didactical bases 423–444

Gavora, M. & Hannafin, M.: Perspectives on the design of *human-computer interactions: issues and implications* *445–477*

*Guidelines for Authors* 479–482
